BILL SUMMARY:

This Bill, as amended, requires that all hospital clinical staff and trainees wear badges containing certain identifying information and that hospitals provide patients with information regarding the role of medical students, interns, and resident physicians in patient care. It further establishes a patient's attending physician as the doctor in charge of the patient's care, requires nurses to call for or assist a patient in calling his or her attending physician in cases of patient concern, and requires hospitals provide a mechanism that is available at all times whereby patients can receive assistance for resolution of urgent care concerns. The Bill, as amended, excludes hospital owned or operated by the Department of Mental Health.

EXPLANATION OF IMPACT:

Department of Health and Environmental Control (DHEC)

The Department is charged with the responsibility of enforcing the provisions of this Bill. DHEC reports that the enforcement activities can be incorporated into their current licensing activities and would have a minimal impact on the agency.

Department of Health and Human Services

This Bill proposes hospitals implement procedural processes that are not Medicaid allowable expenses. The Department reports this Bill will have no impact on the General Fund of the State, or on Federal and/or Other Funds.

Medical University of South Carolina (MUSC)

MUSC estimates the cost of this Bill to be \$50,000 annually for information brochures and badges.

USC School of Medicine

USC reports this Bill will have no impact on the General Fund of the State, or on Federal and/or Other Funds.

LOCAL GOVERNMENT IMPACT:

Enactment would have little or no impact on local expenditures.
